Description

Get the reliable, cost-effective and safe Corrugated Plastic Pipe for your long-term drainage needs. TDR Pipe is one of the top-rated Corrugated Plastic Pipe Suppliers in Texas manufactures the highest quality corrugated metal and plastic pipes including aluminum and steel. In recent years, the specification and usage of double-wall corrugated plastic pipes for stormwater management has increased dramatically on the basis of their superior characteristics: strength and stability of the pipes, combined integrity and long-term profitability. And this the reason we only manufactures that performs high and low both coverage applications. Its unique ability to support and distribute live and dead loads allows almost all installation conditions to be completed. For more info, visit www.tdrpipe.com
