Description

The DISC Personality System is recognized as "the universal language of behavior". DISC is a simple assessment tool yielding profound insight into human actions and behavior by identifying the intensity of four personality traits - Dominance - Influence - Steadiness - and Compliance. Now you can take the same personality style assessment used by businesses, schools, and governments worldwide. Discovering your personality style will enable you to enhance communication, strengthen relationships, implement predictive hiring processes and increase employee retention, build productive teams and motivate yourself and others. The Personality System is available as an online report and printed profile.
