

Marketing Mix Performance Assessment

from: Mision Limited

Price: £3,000.00

Date: 2020-08-30 18:28:21

Expiration Date: 0000-00-00 00:00:00

Description

Measure performance in real-time utilising software to aggregate data and assess the full mix of media. More consumers, more media channels, more products, more competition, more data – calculating advertising effectiveness has become more complex, and traditional static econometric modelling is no longer relevant. We combine the many streams of live data with our advanced modelling tools – empowering you with real-time scenario planning and live forecasts, based on your most up-to-date data.
